

Caprari's Sustainability Report

The Corporate Social Responsibility (CSR) is a new approach for managing a company. It is focused in creating innovation being environmentally, socially and economically sustainable.

Caprari, that since ever pursued this objective considering it like a fundamental lever for growing its business, this year has obtained the "CSR 2010 Award" of the Modena's Province for its "Sustainability Report".

The Sustainability Report is the document in which the environmental, social and economic performance of an enterprise is

measured and recorded, and in which responsibility for this performance is assumed in relation to the stakeholders, all with a view to achieving the sustainable development goal.

Caprari's intention with this Report is to provide all of its stakeholders with a full, detailed and transparent description of Caprari: its business, its organization and the mission that guides its continuous growth and development targets.

Caprari is an industrial group specialized in high efficiency pumping solutions for the integrated water cycle (captation, adduction, depuration, boosting).

As a reference point and authoritative partner for all professionals involved in integrated water cycle management, Caprari enjoys an impressive reputation in the marketplace. The company can provide tailor-made and highly-efficient solutions for extracting water from deep wells, pumping and conveying water on the surface, draining rainwater, collecting waste water and reusing it after treatment. Caprari is the natural result of developing expert know-how and technologies and its comprehensive offering

of innovative solutions for various technical applications is the way of fulfilling the key needs of our customers in order to forge closer and more specialized partnerships with them.

Caprari is a specialized industrial group with a global workforce of over 700 people. The company's headquarters is in Modena (Italy), with three production plants in Italy, eight branches abroad, two joint ventures and an extensive organization throughout all five continents.
